

Northern Virginia Ophthalmology Associates, PC

For our pediatric patients undergoing ROP (Retinopathy of Prematurity) screening or follow up and insured by Carefirst:

Please be assured that we will **continue** to provide your **ROP (Retinopathy of Prematurity)** follow-up visits for the medically necessary period as recommended by your Ophthalmologist. After December 4, 2023, we will be non-participating with Carefirst. **In the event you are a Carefirst Pediatric patient with ROP, and Carefirst does not provide payment for your visit, you will not be billed for any subsequent visits during the specified follow-up period.**
