

Dear Valued Patient,

We are currently experiencing technical difficulties with our appointment scheduling system. As a result, some patients may have received reminders to schedule an appointment, even if they already have one. If you already have an appointment scheduled, please disregard this message.

To confirm your appointment, you can log into your portal account at [mypatientvisit.com](http://mypatientvisit.com) or call our office and wait for the next available representative. We sincerely apologize for any confusion this may have caused.
